LIVE WEBINAR

WILDFIRE RISK MANAGEMENT FRAMEWORK

tuesday
APRIL 28
2020

03:00PM
06:00PM

AGIF - Agência para a Gestão Integrada de Fogos Rurais invites you for an exclusive webinar, on tuesday, April 28th to learn more about **Wildfire Risk Management Framework** with the experts Alan Ager and Fermín Alcasena.

LEARN MORE ABOUT

- _ Latest wildfire risk management framework
- _ Adoption of new decision support tools for assessment and mitigation of wildfire: Cross-boundary or transboundary risk | Wildfire network transmissions | Community firesheds | Burn probability | Landscape treatment designer | Fuel treatment strategies

**ALAN A.
AGER**

Position_ Research Forester, U.S. Forest Service
Education_ PhD Forest Genetics, University of Washington | MS Genetics, University of Wisconsin-Madison | BS Forest Science and Forest Management
Research topics_ Forest landscape modeling and scenario planning Restoration of fire adapted systems | Socioecological aspects of wildfire risk governance | Transboundary risk assessment
<https://www.firelab.org/profile/ager-alan>

**FERMÍN J.
ALCAsENA**

Position_ Research Forester | J-1 International Visitor Program | U.S. Forest Service
Education_ PhD Forest and Environmental Management | MS Wildland Fire Science and Integrative Management, University of Lleida | MS Forest Engineering, University of Lleida | BS&MS Agriculture Engineering, Public University of Navarra
Research topics_ Geoinformatics, Environmental Management, and Forestry | Large fire modeling, wildfire risk assessment and fuel treatment spatial optimization
https://www.researchgate.net/profile/Fermin_Alcasena

INTENDED AUDIENCE

This webinar is primarily intended for reserchers and practitioners involved in wildfire risk management, with advanced GIS knowledge and fluent english.

REGISTRATION

This webinar is **free and open but you must register**. Please register at secretariado.agif@agif.pt
